Agreement to Conditions of Participation

I am aware that The Crossing Land Education Trust's sustainability education courses and landcare journeys may have risks and dangers that are greater than those normally faced at home or school. Those extra risks and dangers may include: physical exertion for which I may not be prepared, difficult access for medical services, environmental hazards related to vegetation/terrace (eg: falling, drowning) and insects/animals (eg: bites, stings) and hazards associated with tool use (eg: cuts or impacts from wood-splitters, shovels, mattocks, chisels, hammers, drills, saws, knives).

I agree to:

- lend a hand and assist staff to ensure a safe, happy and hygienic team environment
- notify any relevant medical conditions and pre-existing injuries on this form and I consent to staff rendering or authorising such medical treatment and emergency evacuation services as are necessary and reasonable for my safety and I accept responsibility for all associated expenses including lost or damaged personal gear.
- respect the rights, feelings and property of all others associated with The Crossing and its courses
- not consume or store alcohol or illicit drugs, not smoke and not have knives, weapons or spray cans including spray deodorant (allergy risk)
- the use of my written or recorded feedback, as well as photographs and video taken of me in association with activities of The Crossing for publications or promotional materials of The Crossing or its founders for purposes of fundraising or education.

I understand that if I do not meet these conditions I would be asked and expected to leave the course and that I would forfeit all fees, goods and services associated with the course.
